ARNAM

Australian Research Network for Advanced Materials

2006 Annual Workshop

St John's College, University of Queensland, Brisbane, 28 - 30 June 2006

First Announcement and Call for Papers

The ARC Australian Research Network for Advanced Materials 2006 Annual Event will be an informal workshop in Brisbane at the University of Queensland immediately before the ICONN '06 meeting.

The two and a half day workshop will focus on the following four research areas:

- Materials drivers for high tech IT, communications and sensor applications
- Innovative structural and functional materials for diverse applications
- Materials solutions for advanced manufacturing
- Materials for a sustainable Australia
- Abstracts of contributed papers can be submitted on line
- Abstract deadline 28 February 2006
- ARNAM will heavily subsidise local costs for contributing participants
- Prestigious paper prizes will be awarded to student and early career researchers in each of the research focus areas
- Contributing students and early career researchers can apply for travel grants
- Visit also ICONN '06 website at: <http://www.ausnano.net/iconn2006>.

Workshop Format:

- A small number of plenary overview papers from Australian and overseas research leaders
- Contributed papers mainly from research students and early career researchers
